

## Web Site Report

The webcalendar software was updated to version 1.3.0, which was released 16 August. (Webcalendar is not likely to be updated again and will eventually become obsolete because the underlying PHP will no longer be supported.)

Dada, the mailing list software, was updated to version 11.5.0, which was released 12 November. Dada continues to be updated several times a year.

The website changed hosts from Amhosting to Dreamhost after it became apparent that Amhosting response time was much slower than similar hosts.

We created the Dreamhost account on 11 October. The transition was completed by 10 November. All the reports, photos, and pages were transferred. We transferred the email accounts. However, Dreamhost does not allow forwarding to comcast.net email addresses because comcast.net has a reputation for hosting spammers. Also, Dada mail to fairpoint.net addresses is intercepted as potential spam.

We published 57 reports of our events.

John Buddington, Webmaster

### Green Mountain Club Montpelier Section

[Help](#) [Events](#) [Trips](#) [Trails and shelters](#) [About us](#)

Recent reports can be viewed by moving your cursor over the [Report](#) image. Canceled and rescheduled events are marked as is the date of a change in the wording of an event. Clicking on various photos may lead you to the report they are found in. This page was refreshed on Sunday April 12 09:55. Updating the calendar is done by volunteers and is generally accurate within a day or two. Contact the leader to verify the current status of an event.
